

What the Members are saying The Drivers Club at New Jersey Motorsports Park

- Just one day as a guest in my Porsche 911 and I was hooked.
- I wanted plenty of track days to work with my busy schedule.
- NJMP has the closest and most affordable high-performance membership club to NYC.
- I joined to spend time with my family on the tracks and improve our driving skills, plus NJMP is close to the shore and I am able to store my car inside the Exotic Car Garage.
- The tracks have plenty of runoff space and smaller run groups, plus I enjoy having great instructors, safety conscious members who I trust, the trackside suites, attentive staff, and the Finish Line Pub, all tremendous values.
- I joined for the for the country club atmosphere within a racing & car enthusiast culture that welcomes my family and I, plus we entertain clients as a business owner.
- Tons of club days to share with like-minded members, a staff that goes way out of their way to provide the best experience & the highest level of consideration... what's not to love?!
- As a Corporate Member rooted in performance R&D, there is no better place to test our designs than NJMP. Also, NJMP is a great place for networking and entertaining clients.
- Club Days are like mini vacations, including a sumptuous breakfast and lunch, all in the company of the nicest people, NJMP staff included.
- Track time is unparalleled. We get clean track time with less of a crowd and with people you trust who are driving safe cars. Best of all, this all comes at a very digestible price point.
